## MOSQUITO WAR PLANS READY.

(Continued from Page 1.)  
The Board of Health along the lines indicated.

**MOSQUITO DISTRICTS.**  
The Board has now 8 Sanitary Inspectors. It is proposed to have 11 Mosquito Inspectors.

**Mosquito Inspector.**  
Kaimuki to the ridge including Paliolo 1; Waikiki and Park 1; Manoa and neighborhood 1; Makiki to sea 2; Business district 1; Nuuanu and Paoan 2; Nuuanu to Kalihi mauka of School 2; Kapalama and lower of Kalihi 1. Total 11.

**Sanitary Inspector.**  
Waikiki and Park 1; Makiki to sea 1; Business district 2; Nuuanu and Paoan 1; Nuuanu to Kalihi mauka of School 1; Kapalama and lower Kalihi 1. Total 7.

The 8th Sanitary Inspector is engaged in looking after pig and duck ranches.

The districting has been made with a view of having the Sanitary Inspectors in their respective districts assist the Mosquito Campaign in so far as their other and regular duties may permit.

The foregoing districting is tentative and is subject to change as conditions may demand after the work is started.

**EXPENSES.**  
There will be required for the carrying on of the campaign, including the pay of inspectors, materials, etc., approximately \$1000 per month; for necessary equipment to inaugurate the campaign, such as pumps, barrels, oil etc., approximately \$350.

**ACCOUNTING.**  
Pay rolls and a list of supplies purchased will be rendered the Shipper's Wharf Committee, monthly. These will be made in duplicate, duly certified to as correct by the officer in charge of the Mosquito Campaign and countersigned by the Secretary of the Board of Health. Upon receipt of check for the aggregate amount of such pay rolls and supplies for the current month, which check will be acknowledged by the President, the bills will be promptly paid and the originals, together with the original pay roll, will be returned to the Shipper's Wharf Committee.

**DR. PRATT IN CHARGE OF MOSQUITO AND SANITATION WORK OF THE BOARD.**

(a) Sanitation Work will cover the entire Territory. The actual sanitation work in Honolulu will be under the direct charge of Mr. Charlack, under whom the Sanitary Inspectors will work. Dr. Pratt acting in a supervisory and advisory capacity. The Sanitary Inspectors of Honolulu will be subject to the immediate directions of and responsible to Mr. Charlack, and Mr. Charlack responsible to Dr. Pratt. The same system will prevail in Hilo and Hemauna districts, Hawaii, under the direct charge of Mr. Bowman. Dr. Pratt will necessarily and occasionally visit the other islands and localities in this island other than Honolulu.

(b) Mosquito Work will cover Honolulu only and will be under the supervision of Dr. Pratt with Mr. Charlack as assistant. The Mosquito Inspectors will be responsible in the same manner as the Sanitary Inspectors. Dr. Pratt will attend to the educational side of the campaign.

**ADDITIONAL DUTIES.**  
(a) Supervision of the filing in, recording and filing of forms used in connection with the Leprosy Law until such times as the present clerk is fully broken into his work.

(b) Supervising the making up of maps and reports showing the location of contagious diseases. A clerk is engaged in this work and the reports are made to Dr. Pratt in connection with sanitation which also means fumigation and disinfection.

(c) Attending to special matters when so directed by the President of the Board. As a matter of administration this will not occur to the detriment of his main duties and then only in case of extreme urgency.

(d) For duties heretofore performed by Dr. Pratt see Exhibit "B."

**MR. CHARLACK.**

Assistant to Dr. Pratt in mosquito and sanitation work. This will be his sole duty. Such duty, with the exception of fumigation and disinfection, will be confined strictly to Honolulu. Fumigation and disinfection will be done by him with the present Sanitary Inspectors, and while such work will be principally confined to Honolulu it will be extended in necessary cases to other localities. While Dr. Pratt is away from Honolulu, Mr. Charlack will act, vice-versa.

It is understood that the above enumeration of duties cannot be made a hard and fast rule from which there shall be no deviation, but as a statement of the plan which will be generally followed.

**OUTLINE OF WORK.**

The work to be performed by the Mosquito Inspectors may be seen from the report which will be required of them; see Exhibit "A." In explanation thereof, it may be stated that each block in a district is numbered and each house in a block has a number. The mosquito men will have a small blank sheet containing the facts enumerated on the blank marked Exhibit "A" which can go in his pocket. On this he will not all that he finds and what work he does each day and will turn in this report each morning. This will be copied on a blank similar to the one marked Exhibit "A" and will be attached to the map of that block.

The other sheet "Inspector's Daily Report" will be for the Sanitary Inspectors to fill out and in each day. This Inspector's blank is for the purpose of a check on the mosquito men and for the information of the superintendent in charge of the mosquito work.

Report will be placed on file in the office of the Board and will be available for the information of the committee.

**I**F Ivory Soap sold for a dollar, instead of less than a cent, an ounce, it would be no better, no purer than it is.

There is no "free" alkali in Ivory Soap; no harmful ingredient of any kind.

It is pure soap—nothing else.

**Ivory Soap**  
99 1/100 Per Cent. Pure

able for the information of the committee. Monthly summaries will be furnished to the committee.

The 25 barrels will be placed at convenient points in the several districts. These will be kept supplied with oil by the oil tank wagon. From these points the inspectors will radiate in their work, carrying their oil in gallon drums. They will also carry a pump and a bucket into which oil will be poured and drawn therefrom by the pump. Ladders will be used in reaching gutters and holes in trees; picks and shovels in filling in low places.

In the work the co-operation of the street and garbage department of the City and County of Honolulu will be sought for the removal of rubbish, tin cans, bottles, et cetera; the co-operation of the Public Works Department in filling in low lands; the labor of the Territorial prisoners; and the co-operation of the Health Committee of the City and County and of the Plumbing and Building Inspector.

The placing of Dr. Pratt and Mr. Charlack in charge of this work will necessitate an important reorganization in the administrative department of the Board of Health. Under this plan the Shipper's Wharf Committee are not only securing efficient and economical superintendence but the services of two high class men who will devote their services and the Shipper's Wharf money directly to the Mosquito Campaign and bring to the aid of such campaign the various utilities of the Territorial and City and County governments under an organized department of the Board of Health. The importance of sanitation work throughout the Territory and of mosquito work in Honolulu requires men whose ability and capacity have been thoroughly tested.

It is well understood that the money of the Shipper's Wharf Committee will be devoted exclusively to the mosquito campaign under a department which is doing allied work, to wit, sanitation. The Mosquito Inspectors will not be required to do sanitation work as such but will as an incident to their mosquito work perform sanitary work. A Mosquito Campaign is in the nature of a sanitary campaign. Such is one of its characteristics for it means the removal of rubbish, tin cans, bottles, drainage, low places, gutter, cesspools and other matters of like nature for the destruction and removal of mosquito breeding places. The Sanitary Inspectors now employed by the

## FORT DE RUSSY ITEMS

The engineer troops of this post entertained a number of their friends from the fleet, now in port here, during the day yesterday and last evening. Supper was furnished early in the evening and entertainment during the remainder of the day. A number of the marines stationed with this fleet were in Camp Columbia, Cuba, when Company G, 2nd Battalion of Engineers, were stationed there, and many of these visited this camp. During the morning many of the engineers were guests of these men on board different ships and enjoyed Sunday dinner with their old friends.

**To Rager.**

First Lieutenant John P. Kelly, Medical Reserve Corps, who has been stationed at Fort De Russy since the arrival of the engineer forces at this post, has been transferred for duty at Fort Rager. First Lieutenant Henry duR. Phelan, Medical Reserve Corps, who has been stationed at Fort Shafter, has relieved Lieutenant Kelly here and will be in charge of the post hospital.

**Equipment.**

The non-commissioned officers in charge of the various survey camps have been reporting at this post for the past two days in order to arrange for the transportation of the new supplies and equipment recently received for the survey. These supplies are to be forwarded from this post to all of the subcamps during the present week. Many of the instruments are of the finest order and will aid greatly in reducing the work of the detachments.

**To Duty.**

Corporal Henry Emerson, Company G, has been returned to duty with his company from the post hospital, Corporal Emerson was hurt some

## SIXTY OFF FOR THE VOLCANO

Renewed activity at the Volcano on Hawaii has served to stimulate unusual interest in the famous natural wonder on the Big Island and the result has been that there is a large booking of tourists for the coming trip of the inter-island steamer Mauna Kea.

The vessel will leave her wharf at noon tomorrow, taking at least sixty visitors to Kilauea. These people will practically monopolize the ship on the voyage to Hilo.

The Volcano is now reported in a very active stage. The Hawaiian band will play off the departure of the Mauna Kea as well as the Kona and Kauai liner Mauna Loa, which also departs for windward Hawaii at the same hour. The Mauna Loa also is taking a number of volcano visitors.

Among those booked for the trip are Roma Jones, J. C. Jones, M. Waitesen, Mr. Wiley, Mrs. W. H. Rice, Jr., Miss Emily Rice, Miss Parsons, O. Edvard, G. Miller, Mrs. J. E. Miller, Mr. and Mrs. A. H. Manning, Mrs. F. Baxter, Mrs. Morrison, Miss Gibson, Mrs. Gibson, Mr. and Mrs. E. M. Barton, H. Gets, Mr. and Mrs. W. Black, Miss Bussey, R. B. Anderson, L. R. Muzzy, Miss E. M. Anderson, Mrs. R. V. Ankeny, Miss C. Randolph, Thos. Wolfe and wife, Helene Johnson, Carme Johnson, Ruby Langham, Mr. and Mrs. Eugene Carroll, Mr. and Mrs. F. W. Carp, Mr. and Mrs. James Harvey, L. McGlinch, Mrs. J. Gilie, Miss Gilie, Mr. and Mrs. T. H. Blythe, Mrs. S. A. Tallam, Mrs. Williams, T. M. Meade, J. S. Kilduff, Lee Laubman, Mr. and Mrs. James Giomini, Mr. and Mrs. G. Jones.

## HOTEL MANX SAN FRANCISCO

Army and Navy Headquarters.

Three hundred rooms, nearly all with bath. Circulating ice water to each room. Built, equipped and conducted to please the really critical. Half a block from Union Square, two blocks from Market St. Convenient to principal shops, theaters and railroad offices. Omnibus at all entrances.

Special attention to Honolulu trade.

**Rates.**  
Without bath ..... \$1.50 per day up  
With bath ..... 2.00 per day up  
Meals table d'hotel or a la carte  
Management of Gus C. Larn.

Marriage is either a success, a failure or a compromise.

It takes a child to make a wise man feel like an ignorant fool.

Board will at the same time be doing work which, if not directly, is at least indirectly in line of a mosquito campaign.

It is hoped that the Shipper's Wharf Committee will be able to give some definite assurance that the appropriation will be continued for a stated number of months otherwise the uncertainty would seriously impair the organization and efficiency of the work. It is suggested that such assurance be given, for the time being, for a period of twelve months so that the organization and work may be framed on that basis.
